InfoWave to Launch New Services Suite

Singapore, April 8, 2008 – InfoWave Pte Ltd (“InfoWave”) today announced the launch of a new suite of services, InfoWave Services, to help businesses optimize processes, control costs and make the most of their innovations, and in the process, achieve operational excellence across the value chain.

The introduction of InfoWave Services reflects InfoWave’s continued focus on delivering a full suite of services to meet the growing needs of organizations and businesses in the transportation, logistics, electrical and electronic sectors.

InfoWave Services allows InfoWave to focus on leveraging its domain knowledge, expertise, and state-of-the-art infrastructure to offer four cost-competitive services including Product Repair and Maintenance, Field Support and Maintenance, Business Process Outsourcing, and Value-added Services. These services are designed to help companies focus on their core strengths while achieving better business outcomes.

"InfoWave Services offers companies the opportunity to tap into our experience," said Loh Choon Seng, Managing Director of InfoWave. "These companies can now grow their business faster and more cost-effectively by taking advantage of what we have learned and built over the past six years."

Since 2002, InfoWave has established a solid reputation for maintaining international standards in its quality, infrastructure and delivery mechanisms. With its proven capabilities and expertise, InfoWave is well-positioned to grow its services revenue in 2008 and beyond.

About InfoWave

Founded in 2002, InfoWave is a leading provider of wireless communication devices, solutions and services to organizations in the transportation, logistics, public safety, and homeland security and defense industries. Headquartered in Singapore, InfoWave has a distribution network that spans across Asia Pacific, Europe, and Middle East. For more information about InfoWave, please visit us at www.infowave.sg.
